THE
ANGELUS
CORPORATION

www.TheAngelusCorp.com

Our mission is to provide solutions that meet the rigorous demands of the aerospace & defense markets and make our customers' jobs easier.

The Angelus Corporation is comprised of two divisions: PIC Wire & Cable® and CertifyNation®

www.PICwire.com

PIC Wire & Cable designs specialty, high-performance electronic cables, connectors and assemblies for rugged, harsh environments. Products are specified worldwide in demanding military, corporate and commercial applications that include airplanes, helicopters, UAVs, ground vehicles and ground shelters.

CertifyNation is an aerospace engineering services company that specializes in the development of Supplemental Type Certificates (STC) for aircraft avionics modifications with civil aviation authorities across the world.
